

Landfill Operation - Waste Disposal

Key Facts and Figures

- Established on April 24, 2012 under the Ministry of Regional Development and Infrastructure
- The government holds 100 % shares of the company
- Since 2013, the company owns and operates 53 former municipal landfills out of which 28 have been rehabilitated and 14 have been closed
- The company has a total of 272 staff (68 in the head office Tbilisi and 204 in regional offices)
- The company is responsible for solid waste management with respect to landfills in Georgia, excluding the city of Tbilisi and the Adjara region
- The company is going to construct up to 7 new regional landfills.

We construct new landfills

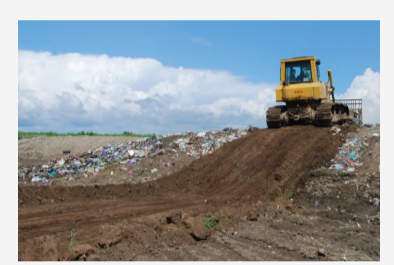

We have actually several projects running for constructing new landfills compliant with EU standard: 1) Imereti and Racha-Lechkhumi and Kvemo Svaneti; 2) Kvemo Kartli; 3) Kakheti and Samegrelo (stage of feasibility study).

We rehabilitate landfills

28 out of 53 landfills have been rehabilitated and 14 have been closed in a regulate way. The rehabilitated landfills assure controlled waste disposal until a complete network of modern EU standard regional landfill has been built and is operational.

We operate landfills

The 215 regional staff of our company are operating the 53 landfills. They assure daily coverage of waste with soil, keep the landfill and surrounding area clean and communicate regularly waste quantities received to the central office in Tbilisi.

“Our mission is to manage the transition from an unregulated system of solid waste disposal towards a fully integrated waste management system in compliance with European standards.”

Our achievements since 2013

53

LANDFILLS are OWNED and operated by the company

28

LANDFILLS have been REHABILITATED since 2013 and 3 more will be rehabilitated

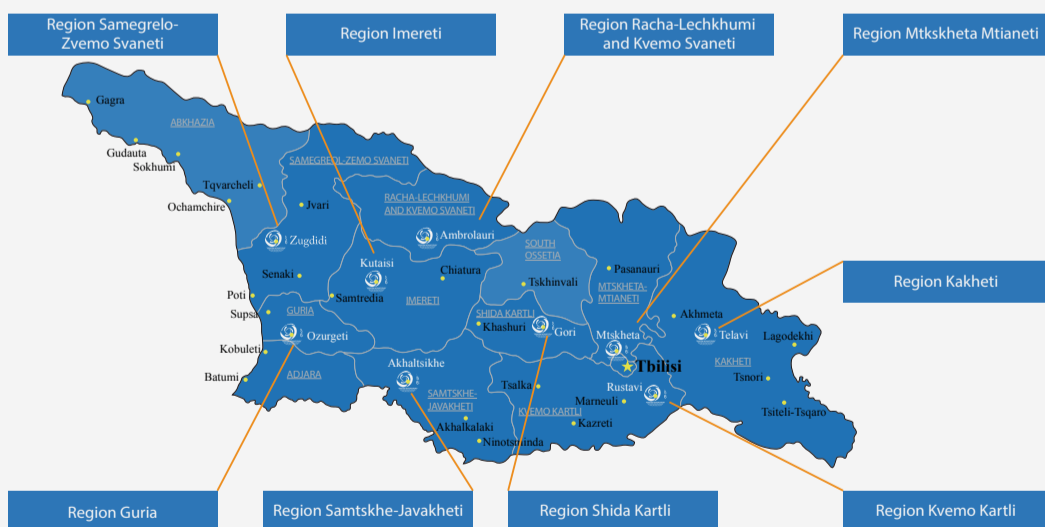

14

LANDFILLS have been CLOSED and 8 more will be closes in near future

23 mio

GEL have been INVESTED for all works carried out since 2013

9 Regional Offices
